## IN THE LOCAL FIELD.

City Was Very Quiet and There Were Few Events of Interest About Town Today.

POLICE COURT.—MATTERS OF INTEREST BUT NO IMPORTANCE.—GENERAL NEWS OF THE DAY.

Sam Reese, in jail at Metropolis on charge of killing Will Scott, his cousin, last Friday, has never dising the death of the killing to anyone save his lawyer. He was committed to jail by order of the coroner, and this, in Illinois, precludes a preliminary hearing. There is, however, of taking him out of a writ of habeas corpus, which is the only way he can obtain bail.

Sam Bundy, colored, who is charged with whipping his wife last Tuesday, was arrested by Officers Ross and Johnson last night and taken up to await trial tomorrow.

May Fern did not start at Lexington yesterday, the race being postponed on account of rain.

This morning an aged colored man, from Maxon's mills, reported to Justice Winchester that a colored youth had taken section had named a girl he raised from childhood. He wanted a warrant, but as the girl was not brought in to swear to it, none could be issued. The complainant claimed that the accused did not promise to marry the girl, but forced her to submit to him, and that she is now in a delicate condition. He went back after the girl.

Detective J. K. Greer will soon be out to train his bloodhounds. He recently purchased the two pups from the marshal of Marion, Crittendon county, and says they are remarkably shrewd animals. For instance, they watch his wife pluck a hen from a bush, and when she goes to the house they proceed to pluck the whole bush.

A deaf and dumb man named Schultz, applied to Justice Winchester for a writ of habeas corpus. He is a property owner in Mechanicsville. He said that he secured a writ of habeas corpus from her house. He had not got out of jail yet, he said, and the lady kicked out. He wanted a warrant for breach of the peace and one for the swearing, he claiming that she swore she had given him the writ. Justice Winchester declined to issue the warrants, as Schultz lives in Justice Barnett's district.

George Poole, Sam Bryant and Will Grant, who were arrested last night for forcing their way into the opera house by way of the stage door. They will be tried tomorrow.

This morning a bar-keeper at a down town saloon was seen out in front of his place of business with a gun. He was recklessly handling it and pointing it at a friend, and of course, that it wouldn't go off. A gentleman passed and remarked that all fools weren't dead yet, and as soon as he had gone only a short distance he heard a loud report and looking back saw the ashen jokers running hastily in, leaving the smoking gun on the walk. It had been accidentally discharged, but for a wonder no one hurt. The young man's escape was a narrow one.

A fact that there was no police at this morning was sorely disappointing to the usual crowd of spectators. Some of them showed up at regular hours, but had to seek some other place for killing time.

Some people are chronic kickers. No doubt this is startling news, but nevertheless a fact. A few days ago everybody was complaining on account of the dust. There was dust everywhere, and it was so bad they didn't attend to business on account of it. Lo, and there came a rain! The dust is now mud, and the people are kicking worse than ever.

Evangelist Mulholland says that one of the most successful meetings ever held were those that started without demonstration. "Quiet" religious services, he thinks, are the most productive of good, and are the ones that are most satisfactory to the evangelist. Good crowds continue to hear Mr. Mulholland and his colleagues.

Mr. Dick Arm, one of the "Regulator" types, had a strange hold over last night. His room mate, Electrician Fisher, and Charlie Clark went "coon hunting" last night. They caught a fat raccoon, half killed him and left him in Dick's bed. The latter turns in about 5 o'clock a. m., and this morning had not begun to slumber when he found his strange companion exploring the bed. When the smoke of battle cleared away the room was very quiet and peaceable, and it was well for the jokers that they could not be found.

Mr. A. E. Kluskin, formerly of the People's Railway Company, will probably take charge of the Paducah Gaslight Company, on North Third street on November 1. He is now

negotiating for a lease of the plant, with option on it, but the announcement that everything had been finally settled was premature. If Mr. Kluskin secures it he will be general manager, and will furnish electricity and electric power. Mr. Ed Matt, the present superintendent, will in this event return to Evansville to reside. The deal has been talked of for three months.

The Metropolitan Operatic Specialty Company, reorganized here yesterday, went down to Metropolis this morning, where a performance will be given tonight.

Constable Anderson Miller was in the city today for the first time in two weeks. He has been quite ill at his home near Massac, and in addition his wife and a child are ill. He reports much rejoicing over the rain.

Mr. D. A. Considine, advance agent for the Veriscope, is at the Palmer. The Veriscope will be here the 19th, or 20th, and will show the Corbett-Fitzsimmons fight in its entirety, including everything that occurred before, during and after the fight.

Consulting engineer J. H. Elliott, of Memphis, arrived last night. The sensational report in a contemporary that the sewerage system is defective in construction is entirely without foundation. The water all runs the right way—towards the river, and there's nothing wrong with the sewerage.

George Knott, of near Maxon's Mills, whose buggy was taken from Calloway's wagon yard here on show day, last Thursday, found the wheel at the home of Bob Crouch, colored, a mile from his own farm. Crouch is the same man who came to the city and claimed the old buggy that was left in place of the new one. When the new one was found on his premises he claimed he traded for it.

John Lowe, colored, was at the Union Depot at noon and wanted officer Sutherland to arrest R. T. Berry, colored, who was about to leave. He had a check for \$2.50, drawn on a bank in Glasgow in favor of Mrs. Ellen Smith by Berry, and was afraid it wasn't good, he had no warrant, and of course the officer could make no arrest. They went aboard and questioned him, however, and he assured them the check was all right.

The writ of habeas corpus case of Mrs. Matie Dennis against her husband, R. M. Dennis, for the custody of their 5-year-old child, William, was called in Judge Tully's court today and postponed until Thursday.

### PLUCKY YOUNG MAN.

Mr. A. S. Thompson Thrown From a Buggy.

Aut Hit Terra Firma on His Feet. Clung to the Reins for Half a Block.

Mr. A. S. Thompson narrowly escaped being hurt shortly before noon today near Fourth and Broadway. He started to touch up a horse with a whip on South Fourth street near Broadway, and the animal plucked forward in such a way as to overturn the pneumatic tire vehicle. Mr. Thompson was thrown out, but hit on his feet, and escaped injury. He clung heroically to the lines for half a square, and finally succeeded in stopping the maddened horse.

A horse belonging to Mr. Chas. Warren took fright at the show band at 11 o'clock this morning and ran about a square down Broadway, being stopped at Third street before any damage was done.

### MORTGAGES AND LEASES.

Records of the Illinois Central and C. O. & S. W. Deal.

Today's Courier-Journal says:—A number of instruments growing out of the recent change of owners of the C. O. & S. W. railroad were lodged for record yesterday with the County Clerk.

The United States Trust Company, of New York, conveys to the Illinois Central Company, in fifty-three parcels, the property in Kentucky of the C. O. & S. W., formerly owned by Huntington.

The Illinois Central and E. H. Hartman convey to the Chicago, St. Louis and New Orleans railroad company the Louisville division of the old C. O. & S. W.; also the Short Road, and the Falls of Rough railroad.

The Chicago, St. Louis and New Orleans railroad company lease the

Louisville division to the Illinois Central.

The Chicago, St. Louis and New Orleans railroad company and the Illinois Central mortgage the Louisville division to the United States Trust company for \$25,000,000.

The Chicago, St. Louis and New Orleans railroad company executes an income second mortgage on the same property for \$3,000,000.

The object of these instruments is to give the Illinois Central control of the whole property with its terminals, and to keep it absolutely clear of any other alliance of the Illinois Central.

SAID TO BE IN NEW YORK.

Senorita Cisneros to Be Lionized By Cuban Sympathizers.

New York, Oct. 12.—The "Herald" today says:—

"Senorita Evangelina Coscio y Cisneros, the Cuban girl who escaped from Casa de Re-cogias, in Havana, on Wednesday night last, arrived in the city yesterday morning. American friends accompanied her by train from New Orleans. On reaching Jersey City, Miss Cisneros was taken in a closed carriage to the headquarters of the Cuban sympathizers in this city, at 56 new street, where she was joyfully received. After a short reception, she was taken away, and no one was allowed to see her until this evening.

"A special edition of the local Cuban newspaper was published this afternoon asking all loyal Cubans to assemble at the office of the junta at 8 o'clock to join in a torchlight parade in honor of the young woman's delivery."

MRS. GLEASON'S ASSAULT

Has Caused the Formation of a Vigilance Committee at Newport.

Newport, Ky., Oct. 12.—It is said a number of law-abiding citizens have organized to aid this city of toughs who have lately been committing many depredations. The agitation was given birth through the assault upon Mrs. Gleason. According to the story that is going the rounds, six well known men met at a private residence and talked over plans for such an organization. There will be many elements in the organization that will favor of a vigilance committee, but the e will be no lawless doings. Their idea is to form a committee on public safety to aid the authorities in having an old fashioned round-up of the tough element.

The Yellow Fever Situation.

New Orleans, Oct. 12.—Owing to the failure of the people of this city to recognize the mandates of the board of health, hope of stamping out yellow fever has been abandoned until frost comes. There were forty new cases and four deaths yesterday. Three new cases developed at Galveston. Four cases have been found at Houston, Texas. Everywhere else the situation is improved, in some places for want of material.

The record today in this city at noon was fourteen new cases and two deaths.

WIDER APART THAN EVER.

Primitive Baptists of West Kentucky Can Not Settle Differences.

Benton, Ky., Oct. 11.—A three days' meeting, in which great interest was taken by the Primitive Baptist church of Southwestern Kentucky, has just closed at Mt. Moriah church, this county. The Primitive Baptist church has been sadly disrupted for some time in this part of the state, and to settle the point in controversy was one of the main objects of the meeting. There are two factions: One led by Eld. Boaz, who believes in the absolute predestination of all things, and it is claimed a large majority of the members of the churches hold to this doctrine. The Kirkland brothers do not believe in this, and they have a good following, but are sadly in the minority. The two factions were wider apart at the close of the meeting than ever before. It is predicted by many that ere long there will be two distinct organizations of the Primitive Baptist church in Western Kentucky.

WEYLER THEN RETURNS.

Capt. Gen. Blanco Sails for Cuba on October 15th.

Madrid, Oct. 12.—Captain General Blanco will sail for Cuba on the 15th, and Captain General Weyler will return to Spain immediately. ### ANNOUNCEMENT.

Commonwealth's Attorney.  
Sam Houston is a candidate for the office of Commonwealth's Attorney for the Second Judicial district composed of No. 10 and Marshall counties at the November election.

Did you hear him squeal?  
If Wilhelm don't deal in personalities what is it he does deal in? Second-hand news exclusively or plate matter.

It took nerve for the Register Co. to authorize Wilhelm to offer that reward. Out of the three stockholders he and his brother are two.

WILHELM don't deny in his two and a half column article being an A. P. A., but wants someone to prove it. He is the only one we know of who would violate his oath for the reward. Maybe he is after the reward himself.

Nobody has been heard to hint for the past two months that William McKinley made any mistake last fall when he remarked that he thought it better to open the mills to American labor than the mints to the world's silver.

The earnings of the Dingley law in the second half of August were slightly in excess of \$9,000,000; those of the first half of September were over \$10,000,000, and those of the last half of September were in excess of \$11,000,000, showing a steady and gratifying increase in income under it.

Every fire insurance policy in Paducah contains an evidence of the good management of the present council, in the low rates of insurance. For evidences of Democratic management take a stroll down to the foot of Broadway and gaze upon our \$36,000 wharf.

BRYAN delivered an address at Kansas City a few days ago, and his cooperation was one-half the gate receipts. A close inspection reveals the fact that Mr. Bryan is speaking

for the masses against the classes as so much per night. He is making more per year speaking for the dear people than the salary of the President of the United States amounts to.

W. J. BRYAN wrote to Tammany advising that body to declare for 16 to 1, Bryanism and any other ism that might be in the Chicago platform, either actually or inferentially. But Tammany is running its own campaign this year and the unasked for advice was ignored and laid away, perhaps for reference after the election.

The Treasury receipts under the Dingley law are steadily increasing. The receipts of its second month are greater than those of the second month under the Wilson law, despite the fact that the Dingley law found the country filled with foreign goods, while the Wilson law found many million dollars' worth of goods waiting to enter and contribute to its earnings.

The action of Senor Sagasta in recalling General Weyler from Cuba has at least won the commendation of all liberty-loving people. The new Spanish ministry may make mistakes and will, in fact, probably prove entirely unable successfully to cope with the Cuban problem; but the recall of Weyler is an act that will meet the approval of the civilized world.

PADUCAH is a growing city. It needs a business-like and thoroughly wide-awake board of council to manage its affairs. The republican party has selected a board of council, and asks that every voter will consider the personnel of this ticket and vote accordingly. The republican nominees for council are thorough business men, in whose hands Paducah's interests will be well cared for.

The denial of dealing in personalities at the beginning of his two and one-half column article, starts the Register's article off with a falsehood and stamps the whole of it as made of the same stuff. His arraignment of Capt. Farley, Capt. Williamson, L. K. Taylor, F. M. Fisher and everyone else that he dislikes have been the most venomous personal attacks ever dealt in by any newspaper in Paducah.

The Russian government is soon to put into practical operation one of the protective features of this country. That government has determined that after 1900 the coasting trade must all be done in Russian vessels, flying only the Russian flag. This is a strictly American policy, and under it our coast, river and lake marine has been built up until it is the finest on earth. If our ocean marine had the proper protection it would not now be in a state of decadence.

Not a day goes by without substantial evidences of the gaining strength of the Republican municipal and county tickets. In the city, where the party has a two years' record to point to, the tide is slowly but surely setting towards Farley. It is evident that Mr. Lang as mayor would be but a continuation of the services of Mayor Yeiser, and with all due respect to Mayor Yeiser as a business man, as a city official the people have had enough, a great plenty.

"Have you seen the General?" is the question Bryan used to ask last year while on his Republican-vote-making tour. But we don't hear anything more of that from Bryan or his followers now. General Prosperity is here. The public is becoming used to the starting up of mills and factories; of farmers products rising to the point of profitable prices. In fact the novelty of returning prosperity is wearing off. The Advance Agent of Prosperity has made his word good and the good times are here, and everybody knows it.

How LONG would the city of Paducah have existed without a sewerage system, had it not been for a republican council, and even this council had to face the opposition of a democratic mayor in the sewerage business. The city needs a sewerage system, and the present council had the courage to assume the expense of constructing it, although there were numerous protests from a few people. But if it had been left to democrats to build the sewer system, Paducah would have waited ten years more. The attitude of Mayor Yeiser, who has now been received into full democratic fellowship clearly shows that.

Our Democratic friends should bear in mind that the Republicans do not claim the entire responsibility for dollar wheat. We admit the effect of the great crop failures abroad, but we do claim that the opening of the American mills and factories and the creation thus of an immense and greatly enlarged home demand, has had a great deal to do with sustaining wheat and other farm products at their high prices. The shortages in the crops abroad was the work of Providence. But the opening of the

mills and factories and the giving of employment to hundreds of thousands who have been idle for months and in many cases years, was the work of the Republican party.

The SUN by its own authority offers thirty dollars reward, that is the maximum salary the manager of the "Register" earned before he got to sinking someone else's money in the newspaper business, to any one who will produce the ballot voted by James E. Wilhelm in the last Presidential election, as it is openly charged that he voted for McKinley, and we want to give him credit for having done so if it is true. As Wilhelm participated in the convention that sent delegates to the Louisville convention that nominated Hindman, we will double the amount if some one will get the ballot showing how he voted for Clerk of the Court of Appeals. We will give thirty dollars to any one who will prove how Wilhelm voted for Mayor as between Wilcox and Yeiser.

### THE WAY TO HANDLE THE SUGAR TRUST.

The Hon. S. E. Payne, a Republican member of Congress from New York state, in a speech in Congress in July, outlined the Republican idea of destroying the power of the sugar trust. He said:

"What shall be done with the sugar trust? Well, I will tell you what in my opinion is the best way of dealing with it. Establish a beet sugar factory in every Congressional district in the United States. Give competition, and lots of it, everywhere. You grangers over there, come and help us. You Populists that go up and down the streets day after day proclaiming your devotion to the interests of the farmers, help us out now when we are trying to help the farmers in this industry that we can establish so successfully. In this way you will do something towards demolishing the trust."

"Why should we not produce all of our sugar in this country. Why, it costs us, Mr. Speaker, about one hundred millions. We were looking around for proper subjects for taxation. We knew that sugar would produce an enormous revenue; and besides all that, we knew that an adequate protective tariff would build up the industry in this country, and as it was gradually built up the revenue from that source will be reduced; by and by the revenue will come in more largely from other sources, and when this industry is fully established and revenue from sugar ceases, the reduction will keep pace with the increase. The thing will regulate itself; we will not disturb our tariff in the next quarter of a century."

First Assistant Postmaster General Perry S. Heath is going to Louisville to consider plans for the establishment of four postoffice stations in that city.

### DR. GOLDSTEIN.

The Optic Specialist Will Remain a Few Days Longer to Give Those Who Have Not Consulted Him an Opportunity to Call On Him.

Eyesight is priceless, and the popular opinion that the use of glasses should be postponed as long as possible is erroneous. As soon as unpleasant feeling denotes approach of failing sight glasses should be resorted to at once, as the longer the eyes are deprived of the aid which they need, and consequently subject to strain, the more rapidly will be the changes as the eye becomes developed. The market is flooded with low priced spectacles which have imperfect lenses, are therefore a great injury to the eye. The important part of a pair of spectacles is the part comprising the frames, and naturally of most importance are the lenses they contain. His glasses are fitted with the finest spheroidal convex and concave lenses, accurately measured and properly adjusted to the frame, preventing irritation and strain to the eye. There is a great public need for information regarding the proper selection of spectacles and care of the eyes. A large proportion of habitual weak eyesight may be entirely remedied by the use of a carefully adjusted glass to assist the sight and thereby remove the undue strain to which the eyes under certain conditions are subjected. Those whose eyes are in a condition of perfect health will fail to understand adequately the stress laid upon apparently trivial matters in the preceding remarks; but those who have suffered from any defect for weakness of the eyes will comprehend at once the great importance of the seemingly insignificant point mentioned. The former class of individuals, however, should have quite as much interest in the matter as the latter, for the old proverb that "an ounce of prevention is worth a pound of cure" can find no more fit application than in the care of the eyes.

Dr. Goldstein comes to us highly recommended and refers with pride to his successful work in Hopkinsville and other neighboring towns. His office is at the Palmer House, and office hours from 10 a. m. to 3 p. m. Consultation and examination free.

Arrangements have about been completed for the reception of Hon. W. J. Bryan tomorrow evening. The lumber for the rostrum was received this morning, and the work of constructing the platform began this afternoon.  
The park committee of the council declined to allow the park benches used for the occasion. Chairman Kirchhoff was seen by a reporter and said the reason the committee refused was because there were only about twenty-six benches, and these would

The Franklin Case—Benton—No New Development.

There are no new developments in the Franklin murder case. The evidence is still being heard.  
It was reported last night that Sanford Lowery, an important witness for the prosecution, was in hiding near Metropolis, and Detective Wickliffe came post haste to Paducah on a horse, arriving midnight.

There will be no band used in escorting Mr. Bryan and party from the depot.

Mr. Edwin Travers, the talented young comedian who has won big triumphs on both sides of the Atlantic, will be seen here Thursday night next with a finely balanced company of comedians, in the great masterpiece of the farcical comedy art, "A Jolly Night." Mr. Travers' company contains nothing but clever, reputable players, and one of the most gilded performances ever seen in this city is promised. The comedy is of a pure and wholesome order, clean and strictly up-to-date. Specialties of a most pleasing nature will add to the evening's enjoyment.

### THE KENTUCKY TWO-STEP.

A New Composition by a Paducah Musician.

"The Kentucky Two-Step" is the title of a new march by Mr. H. Miller Cunningham, of this place. The march is a stylish one, has an excellent melody, and reflects considerable musical ability on the part of the composer. It is dedicated to Miss Robertson, an accomplished musician of Fulton. Last summer, before the score was put in print, this march was played by the G. A. R. band, of Canton, Ohio, and made quite a hit. It is now published for nearly all instruments and combinations, and is on sale in the city. We predict that it will be as popular as its merit deserves.

## The Flood Tide....

Of fall trade has set in. It will increase in volume day by day. We are planning our patrons; no store can have a better advertisement than that. We are here for the people.  
Mark a well-beaten path that leads direct to our doors. Note the people as they come. Ask them the reason for making this store the center of their dry goods supplies, and they will tell you that they have full confidence in our merchandising method. That's the secret of our success.

### The Busy Millinery Section.

There's a reason for it—yes, several reasons. First, we've the handsomest stock in Paducah; second, you can depend upon our hats being right in style and worthiness of material; and third, the prices are so modest that one's sense of economy is appealed to.

### The Garment Boom.

In so short a space we could not give a creditable description of the items and prices of these tempting lots of capes and jackets, but would like to emphasize the fact that all are tailor-made; that the fit is perfect; that they are finely designed; that the materials are of the best; that our prices are exceptionally low, and that we want to start the season right by giving you values that you can talk about. We are ready to show you.

### For Shoe Buyers.

Don't think you ever wore honest shoes than these. We know they are honestly priced—too much so for a big profit showing; but we bought them when leather was lower, on a close cash basis, and the saving goes to you, where it rightly belongs.  
We ask our friends everywhere to call on us, and promise to save them money on reliable goods.

**Living Up for Gold.**  
Costa Rica has adopted the gold standard, and San Salvador and Guatemala will follow its example as soon as the necessary legal forms can be completed.

**An Abiding Perfume.**  
Nearly six years ago a farmer who was bringing five or six carboys of essence of peppermint in town had a runaway on West Franklin street near the Christian church, and five of the carboys were broken. Owing to the value of the essence, his loss amounted to something like \$1,500, a total loss, with no insurance. The point in reviewing the incident is that the pungent odor of the liquid, which heavily burdened the atmosphere in that vicinity for months, still clings to the earth where the liquid was spilled, and the neighborhood small boy delights in mystifying the uninformed by picking up clouds of the earth and calling attention to the odor. Occasionally, when the atmospheric conditions are right, the odor rises in such quantity as to be noticeable to passers-by.—Elkhart (Ind.) Review.
